Product Summary

In response to popular demand, here's a collection of six spices and herbs for making delicious dishes from Mediterranean countries, from Spain to Turkey - in a Tuscan-inspired ochre box

Product Description

The Mediterranean Sea is bounded by the sunny lands of Turkey, Greece, Italy, France and Spain, and food from this area is famous for its flavour, based on fresh, seasonal ingredients. Whilst Northern Africa also adjoins the Mediterranean, the flavours are so different that they form a collection of their own. This selection contains oregano, paella spice mix, porcini, fennel seeds, sweet paprika, bay leaves and mastic, accompanied by recipes for Paella Valenciana, Risotto, Lamb Braised with Mastic, Moussake, Stuffed Capsicums and more.
