Product Summary

Black seeds that take on a jelly-like characteristic when added to Asian desserts. (SML PKT)

Product Description

Black seeds that take on a jelly-like characteristic when added to Asian desserts. (SML PKT)

Other Common Names: Subja, Takmaria

Botanical Name: (*Ocimum canum Sims*) **Description & Use:** Sometime referred to as 'hairy basil' or 'Thai basil' the seeds of this variety are collected to use in Asian desserts for their mucilaginous quality. The jelly-like texture of basil seeds is traditional in cooling sweets and drinks, however they make no significant contribution to the actual flavour. Produce of India packed in Australia.
