Product Summary

Wasabi Powder to mix with cold water to make a paste. (SML PKT)

Product Description

Wasabi Powder to mix with cold water to make a paste. (SML PKT)

Other Common Names: Japanese Horseradish *Botanical Name: (Wasabia japonica)* **Description & Use:** Wasabi is traditionally used with Japanese dishes such as sushi and sushimi. While similar to horseradish, wasabi has a unique flavour and very pungent heat. Mix 1 teaspoon of wasabi powder with 2 teaspoons of water, allow to stand for a few minutes - the enzyme reaction will create a penetrating, sinus-clearing heat.

Use sparingly and within about 12 hours of making! So only make-up small quantities at a time for best results.

Imported product packed in Australia.
